CampusLoop

Smart Campus Student Platform

Connect. Participate. Share. Engage.

REC · Tharun Sathish Kumar · 240701563

Why it matters: student activities are scattered across groups, notice boards, and informal channels.

Made with GAMMA

THE TOOLKIT

One platform. Every campus activity.

Lost & Found

Report, search, and claim items.

Study Materials

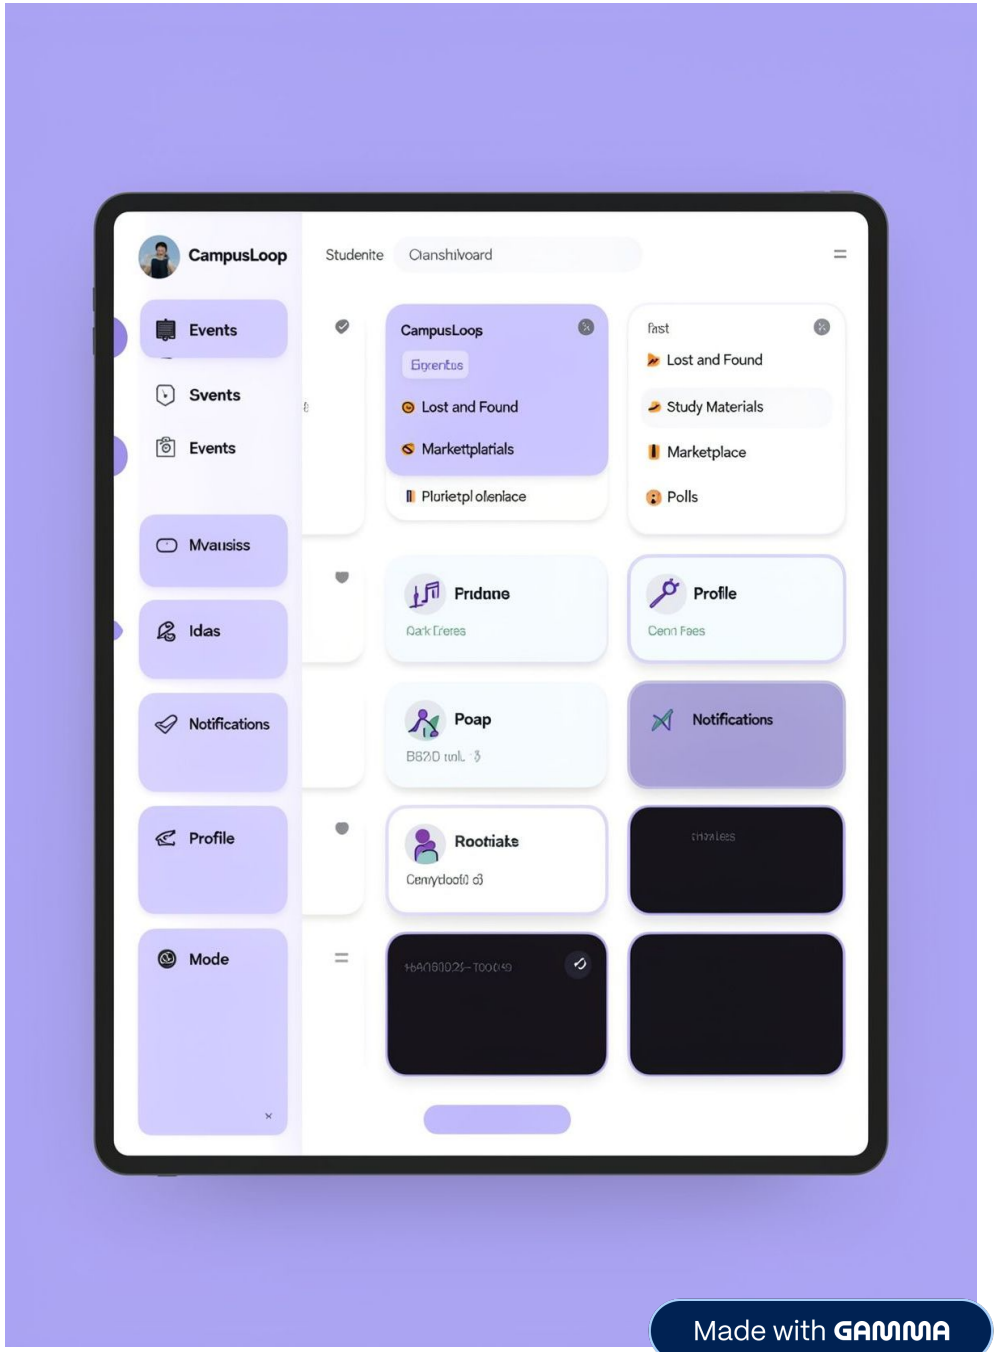

Share and discover resources.

Events and Planner

Find activities and save them.

Marketplace

Buy, sell, or exchange campus items.

Made with GAMMA

Simple web architecture, clear student value

Architecture

1. User opens the responsive web interface.
2. **HTML5** structures the dashboard, forms, cards, and modals.
3. **CSS3** provides the purple UI, layouts, animations, and dark mode.
4. **JavaScript** manages search, filtering, voting, points, events, and notifications.
5. **Browser LocalStorage** stores feature data directly on the device.

REWARDS LOOP

Participation becomes visible.

+15	+10	+20	+5
Share study material	Report a lost item	Submit an idea	Save an event

Help claim +15 · Upvote an idea +3 · Daily Challenge +20 · Vote in a poll +2

Leaderboard	Points
Ananya	480
Rahul	410
Priya	360
Arjun	290

Dashboard · Lost & Found · Events · Marketplace · Ideas · Rewards · Campus Map

Made with GAMMA

PROJECT REVIEW

Prototype today.
Campus platform tomorrow.

TESTING · ALL PASS

Prototype check	Status
Lost & Found add	PASS
Study search · Event save	PASS
Marketplace post · Idea upvote	PASS
Poll vote · Dark mode	PASS
Refresh persistence	PASS

Advantages

Simple, responsive, interactive, low-cost, easy to maintain, no installation.

Limitations

Browser-only storage, no real-time sync, no centralized accounts, basic communication, prototype-level security.

Future

React, Node.js / Express, MongoDB, secure login, college verification, admin moderation, cloud deployment, PWA.

CampusLoop transforms scattered campus activities into one simple, interactive, student-friendly digital platform.
